

 SOLAR COMMUNITY BENEFITS

# Strengthening our home communities.

Invenergy's solar projects are at the intersection of community, the environment, and innovation. We've developed more than 200 projects with the trust of our home communities because we place such a high level of importance on supporting the areas where we work, live and operate.

Our projects benefit communities through property taxes, land costs, lease payments and family-sustaining jobs. As long-term community partners, we support education, military veterans, first responders, charitable causes and environmental conservation.

## Community is the most powerful energy of all.

### Economic investment in solar home communities

- LAND COSTS & LEASE PAYMENTS**  
\$68.5 Million
- WAGES & BENEFITS**  
\$5.6 Million
- STATE & LOCAL TAXES**  
\$12.2 Million

### Support of local nonprofit organizations and causes

# \$377,000

Home Community Cause-Based Giving in 2023

#### THROUGH CAUSES RELATED TO:

Community

Veterans

Health & EMS

Education

Environment

### GRID Alternatives

To further amplify the solar industry's impact, Invenergy supports GRID Alternatives' Installation Basic Training Program. The certificate program helps individuals learn relevant skills for entry-level

solar installation jobs and related construction fields to equip them with the knowledge to be a competitive job seeker in a rapidly growing field. GRID's mission is to build community-powered solutions that advance economic and environmental justice globally through renewable energy. The organization emphasizes helping communities impacted by underemployment, pollution and climate change.

"We are not done farming, we are just farming something new, something renewable, something great. This solar farm is everything to my family, and we are so happy to be a part of it."

— RACHEL K., SOLAR LANDOWNER
